Abstract (en)

[origin: EP1070817A2] Frame component (10) of a door or window hinge has a vertical fastening rail (12) on a blind frame (11) with which an axle receiving part (13) vertical to the blind frame and protruding over the fastening rail is in one piece on a junction point (14) with an axle receiving recess of a pivoting part supporting a leaf part on the axle receiving part. At least the axle receiving part has one of these junction points for the inlay reinforcing the fastening rail.
