Abstract (en)
[origin: WO9952408A1] Self-contained and transportable camp heater (100) with a burner within a casing (121) and a fuel tank (101) operably connected to the burner. A stack (134) is removably mounted on the casing (121) and is positioned on a holder with the casing and the fuel tank (101) after removal for transportation purposes. A regulator (103) is operably connected to the fuel tank and, thence, to the burner. The regulator is conveniently a zero pressure regulator.
