Abstract (en)
[origin: WO9955500A1] The invention relates to a carrier (1) for conveyance and storage of food products such as meat products in an appliance for automatically slicing the food product. The carrier (1) comprises a base plate (3) and optionally a standing wall (2) for supporting the food product during slicing. In accordance with the invention means (4, 9, 10) are present for fixing the position of the food products in relation to the carrier (1).
