Abstract (en)  
A pair of trousers is able to be introverted by forming the fly of two stands (16) which sandwich a zip-fastener (15) between them, one of the stands being integral with one of the front panels of the fabric from which the trousers are made, while the other is made from a separate piece (22) of the same material that is sewn or otherwise fastened to the other front panel. In a preferred form of the invention, the fabric is a single-ply material having faces of significantly-different colour and/or appearance. <IMAGE> <IMAGE>
