Abstract (en)

[origin: DE19936195C1] The push-button switch has an operating button (2) and a switch contact (41) having a contact path (18) and a contact spring (21), each extending parallel to the operating direction of the operating button. This has an operating projection (30) cooperating with a guide (28) for closure of the switch contact upon depression of the operating button.
