Abstract (en)

[origin: WO9951460A1] An animal tying device and a trailer provided with such a device have a tying bar (13) in front of the animal. According to the invention, the tying device and the animal trailer also comprise a withers bar (15), which is arranged above the tying bar and movable to a position just above the withers of an animal tied thereto, thereby reducing the animal's possibility of jumping over the tying bar.
