Abstract (en)
[origin: EP1075931A2] The eccentric press has at least one eccentric shaft (3) with drive (49) connected to the shaft by means of a transmission gear (43) in the form of a differential gear. The drive's output is distributed onto two parallel transmission stages (44,45). The eccentric shaft has a spur wheel (12). The transmission gear has two parallel intermediate shafts (25,25') each of which has a power-take-off (27,27') between the two stages and connected to the eccentric shaft.
