Abstract (en)
[origin: EP1077039A2] The transparent display area of the counter (1) is located at the top and has a bow-shaped front (5), which can be opened by being rotated around a horizontal axle (6). A U-profile (4), positioned along the plane worktop or serving area (3), is provided with a curved fitting (7), which can be guided around the front edge of the worktop (3) when the front cover (5) is opened. There is always a full view on the contents of the display area, while at the same time the gap (14) between the front cover and the front edge of the worktop (3) is kept extremely narrow.
