Abstract (en)

[origin: EP1077307A1] A cable is fed in each link (12,13) between inner and outer pipes (15,16). The outer pipe is provided with openings (19,20) at both ends. The openings are arranged at fixed angular positions with respect to the coupling position. A connector part (21) is arranged at the openings. Connector piece (22) comprises complementary connector parts (23) and a cable connector (24). An Independent claim is also included for a link for a screw boring machine.
