Abstract (en)
[origin: EP1078835A1] A cable car station (1) includes means for driving, guiding and supporting the cables (3) and also for guiding and supporting the disengaged vehicles. The station is pivoted above ground (2) at an uphill and embarkation end on a pillar (13) and is supported at the lower end by hydraulic or electrical jacks (15) such that it may take up a variable inclination (a) to assist the cable motor
