Abstract (en)
[origin: EP1079027A2] A piling system consisting of both methods and apparatus, which in one embodiment is for use installing building foundations and in a second embodiment is for use as a soil sampler. There is provided driving apparatus for inserting ground piles (1), wherein a rod (9) is inserted into the channel (8) of the driver (1) and the rod (9) is then driven into the ground. <IMAGE>
