Abstract (en)  
[origin: EP1079035A2] The modular wall panels (2) are made of metal sheets or plastics sheets (5,5'). Eyes (8') set in one edge accommodate spigots (8) set in the edge of the adjacent panel. The two metal or plastics sheets may be held at the desired spacing by shallow channel-section vertical frames, or by a filling made of plastics foam insulating material. Corner pieces may be provided to form the corners where two walls meet at 90 degrees.
