Abstract (en)
[origin: WO9959815A1] A vehicle glazing (10) provided with a mark (18) indicating a security related attribute of the vehicle. In a laminated glazing (10) the mark (18) is preferably located within the glazing remote from the exterior of the glazing which prevents the mark (18) being soiled and from being damaged or removed from the glazing. The mark (18) may be formed from an ink composition that includes a phosphorescent pigment which enables it to be seen in darkness.
