Abstract (en)
[origin: EP1080979A2] The method involves displaying functions allocated to various equipment on a common display (1) and allocating their adjustment to function buttons (2). By actuating equipment selection buttons (20) the menu or display previously shown on the display device is only temporarily superimposed with the current actuating menu (11) and selected functions can be switched on, switched off or adjusted only for the duration of the current actuation menu.
