Abstract (en)  
The system has at least one assembling unit arranged in a transport container and supply connections to deliver driving energy to the assembling unit. Preferably, the transport container is formed as a modular unit, so that several units can be joined as a manufacturing street. The energy may be provided by a fuel-powered generator, which is electrically connected to the supply connection.

Abstract (de)  
Die Erfindung betrifft ein Herstellsystem zum Erzeugen von Industrieketten, mit mindestens einer Fügeinheit, einem Transportcontainer, in dem die mindestens eine Fügeinheit angeordnet ist, und Versorgungsanschlüssen zum Zuleiten von Antriebsenergie zur Fügeinheit.
