Abstract (en)

[origin: WO9963183A1] The invention relates to a plinth for the lower termination of heat insulating layers which are applied to walls of buildings. The plinth is comprised of a wall profile (4) and of a plug profile (6) which has a male part provided with an outer toothing (2), whereas the wall profile (46) is provided with an inner slot toothing (7) in which the male profile can be inserted with the outer toothing (2) thereof.
