Abstract (en)

[origin: DE19824432C1] The production of a hooked pile closure half comprises forming a closure strip (3) with a woven carrier strip (1) into which a sliding clasp fastener strip formed of plastic mono-filament (8) is woven. The mono-filament is retained by a woven thread (4) on one side of the carrier strip. An Independent claim is also included for the apparatus for the production of the above fastener strip.
