Abstract (en)

[origin: WO9958404A1] A method of providing information about possible uses of a packaged product, wherein the product is mechanically provided with a package (1). The packages (1) are moved on in a row, and a dispenser (13) which is disposed beside the row of moving packages (1) detachably affixes an information carrier (6) to each of said packages by means of a reusable adhesive while said packages (1) are being moved in a row.
