Abstract (en)
[origin: WO9965931A1] A simple non-enzymatic method of preparing a peptide C-terminal amide is described. Such method may be applied to a variety of peptide C-terminal carboxylic acid ester substrates. A simple non-enzymatic method of preparing a peptide C-terminal amide from a fusion peptide C-terminal carboxylic acid ester is also described. Peptide C-terminal amides may be used to prepare various pharmaceutical compositions.
