Abstract (en)  
[origin: EP1086728A2] There is provided a game machine for carrying out a predetermined game wherein a hit is made or lost as the result of the game, the game machine comprising: character storing means for storing information about a character which is provided separately from the game; and character raising means for growing the character, which has been stored in the character storing means, when the result of the game is a predetermined hit. The raised character is able to be utilized for playing another game. Thus, it is possible to increase a player's opportunity to play a game and to increase player's interest therein. <IMAGE>
