Abstract (en)
[origin: EP1086909A1] The flip-top pack for cigarettes has a collar (19) which fits into the base of the pack and over which the lid fits in the closed position. This has slits (26) near its top positioned at the corners where the side walls (21, 22) meet the front wall (20). The fold lines at the bottom of the collar have a rounded cross-section which increase its resilience.
