Abstract (en)

[origin: FR2780193A1] The invention concerns a device (S) for fixing an electronic label, in particular a price tag in a sales area, at the end of a support pin (40) for articles. Said device comprises a box in two parts (10, 20) designed to be mutually assembled so as to be essentially tamper-proof, one (10) of the parts having at least an opening (121, 116, 136) allowing through a pin end portion and at least an internal housing (115, 135) for receiving a transverse portion of the pin end and to be sealed by a wall (21) of the other part (20), while said other part has arrangements (24, 25, 212) for essentially tamper-proof fixing of an electronic label.
