Abstract (en)
[origin: EP1088496A1] The invention relates to a system cupboard comprising a number of uprights (1,2,3,4), connecting elements (9-12,16,17) provided with connecting projections or otherwise, for mutually connecting the uprights and supports (13) to be mounted to the uprights, for one or more shelves (14), the shelves being provided with openings for receiving supports and the connecting projections of the connecting elements and locking means for locking the connecting elements into the uprights have been provided. Said locking means comprise locking members, in which locking occurs under action of the resilient means, by displacement, or with the help of adjusting means. <IMAGE>
