Abstract (en)

[origin: EP1088641A1] Mold cavities of each pair of groups (12, 14) are parallel to each other and at right angles to the other pair of groups (18, 20). One group of each pair of mold cavities is displaced with respect to the other group, at right angles to the longitudinal direction of the mold cavities. Head ends of mold cavities in one group of each pair are directed towards each other.
