Abstract (en)

The present invention provides a method of manufacturing shibori clothes of the desired form and hue in a secure and stable manner by application of measures taken to intentionally leave relief-like shapes called "shibo" (crimps) in the clothes and to provide new types of shibori clothes with unique forms, stretchability, handling and draping qualities, comfort when worn, etc., wherein a shibori clothing manufacturing method, comprising at least a "shibori (binding) process," in which numerous portions of a dyed and sewn cloth 2 are bound partially with a thread 6, a "setting process," which has at least a "steam setting process" by which the shibori cloth 3, obtained by the "shibori (binding) process" is exposed to steam in order to maintain the shibori (bound) shapes, and a "thread removal process," in which the abovementioned thread is removed after the "setting process", and shibori clothes made by this method. <IMAGE>
