Abstract (en)
[origin: WO0000111A1] The present invention relates to urine management devices for babies, children or adults, male or female, to be adhesively attached in a releasable manner to the uro-genital area of the wearer, said devices being particularly easy to put in place and particularly easy to detach after use. Claimed and described is a urine management device (10) comprising a bag (11), said bag (11) having an aperture (21) and a flange (12) surrounding said aperture (21), said flange (12) having a wearer facing portion (23) and a garment facing portion (22), wherein said wearer facing portion (23) comprises a layer of adhesive (20) for releasable attachment to the uro-genital area of a wearer, characterised in that said flange (12) is provided with at least one non-adhesive lobe (13).
