Abstract (en)
[origin: FR2780562A1] The contact manufacture involves an electrical contact which has an electrical strip (32) to which gradual press features (23,24) are applied to form protrusions (22). Contact sections (28) are added to the protrusion peaks, and isolation of elements achieved by shaping a base contour.- DETAILED DESCRIPTION - An INDEPENDENT CLAIM is included for a contact unit manufactured by the above method
