Abstract (en)

[origin: EP1090774A2] The method comprises the following steps: applying to the support article (10) a lower film (21) of opaque ink adhering to the surface of the article (10) and of the type able to be scratched off in small disintegrated particles by a sharp-edged hard object; then writing the secret message (11) on said lower film (21), said writing being such as to be able to be seen on said film (21); then covering the written message (11) with a transparent laminar plastic support (32), which is applied adheringly to said lower film (21) in such a manner as to conceal the written message (11); then adheringly applying to the upper surface of said plastic support (32) an upper film (31) of opaque ink of the type able to be scratched off the plastic support (32) in small disintegrated particles by a sharp-edged hard object. <IMAGE>
