Abstract (en)
[origin: EP1091066A2] The hinge band has casement band for a casement, which is connected by a joint axle (11a) at a frame band (12). A side adjustment unit for horizontal casement adjustment and a height adjustment unit for vertical casement adjustment are integrated in the casement band. The height and side adjustment units are integrated into the casement band as a common unit. The height and side adjustment units are preferably integrated by a cross slide, which is adjustable horizontally by a first slide plate and vertically by a second slide plate.
