Abstract (en)
[origin: WO0001522A1] A press pad for use in a laminating press and in particular in a high pressure, short cycle press comprises a woven fabric (12) of heat resistant strands wherein at least one of the warp (13) and the weft (14) comprises metal strips (15). Preferably, the warp (13) wholly comprises a series of unannealed copper or brass strips (15) which advantageously have a thickness between 0.1 mm and 0.15 mm inclusive and are between 4.0 mm and 5.0 mm inclusive wide. The weft (14) preferably comprises threads which have a silicone covering (17), which is advantageously at least 0.2 mm in thickness.
