Abstract (en)
Installation for demarcation particularly of ski pistes comprises a catchment net (1) held in the area of its upper edge by several supports and by elastic fixture devices (4) in the area of its lower edge. Also in the area of its upper edge the net is held by elastic fixture devices (5). The elastic fixture devices in both cases are rubber straps. In the area of its lower edge the net is fixed to the supports (7). The net is finely meshed, the mesh size being preferably less than 3 cm. On the lower edge of the net an apron (6) is fitted. The lowermost section of the net is has a deflection tarpaulin (32) and the uppermost net section is fitted with an air-impermeable tarpaulin (3).

Abstract (de)
Einrichtung zur Begrenzung von Pisten, insbesondere Schipisten, mit einem Fangnetz, das im Bereich der Oberkante von einer Vielzahl von Stützen gehalten ist, wobei das Fangnetz (1) im Bereich der Unterkante mittels elastischer Befestigungsmittel (4) befestigt ist. <IMAGE>
