Abstract (en)

A device to fix easily a tap(7) to a household object comprises an anchor body (1) suitable to pass from a vertical to a horizontal position; a metal wire (4), integral with the tap (7) and inserted in a sheath (5) relatively to which the metal wire (4) slides, and tightening means to tight the metal wire (4). In order to set working the tap (7) , the anchor body (1) -in a vertical position- and the metal wire (4) are inserted in a hole in the household; tensioning the metal wire (4) the anchor body (1) goes in a horizontal position and blocks the tap. the tension of the metal wire (4) generating on the sheath (5) a thrust which brings the anchor body (1) in a horizontal position and presses it against the household object so blocking the tap.
