Abstract (en)  
[origin: EP1094278A2] The appliance has a filter (14), a waste air channel (16), and a waste air blower (18). An intake channel (26) with intake blower (28) for outside air has an outlet (30) located near the intake side (32) of the filter, so that outside air is fed to the intake area of the filter device, where it is mixed with vapors (8) and together with its is sucked by the waste air blower through the filter.
