Abstract (en)
[origin: WO0030482A1] The present invention relates to artificial eyelashes in which the adhesive part (2) of artificial hair (1) is attached onto side (a) of an adhesive sheet (3) ranging from 0.5 to 2.0 mm and an adhesive layer, which affixes the artificial lashes to the eyelid, is on the back side of the sheet. Since the width of the adhesive sheet on the artificial eyelashes of the present invention is so narrow, the artificial eyelashes can be attached to the lower part of eyelid, just above the upper part of the eyelashes, freely contouring to the shape of the eyelid without any difficulty. Due to the stated advantages, the inconveniences and side effects of wearing artificial eyelashes could be minimized.
