Abstract (en)

[origin: WO9960913A1] The present invention relates to a method for production of mop frames (16). The method is characterized in that it comprises the stages of applying Velcro3 hooks (14, 22) to one side of a sheet (12, 20) which is substantially twist-resistant and flexurally rigid, principally on the whole of its surface, and of cutting out the shape of the mop frame from the sheet.
