Abstract (en)  
The package is produced by folding a precut blank consisting of side panels (31 - 34) with closure flaps (40, 41) and tabs (38). An internal locking structure which is made up of two panels (45, 46) is connected to the main structure by a triangular strip (42) can be folded to produce a partition which divides the package diagonally into two compartments. This has reinforcing components (57) at the bottom. An Independent claim is included for the blank.

Abstract (fr)  
Etui de conditionnement, L'étui est caractérisé en ce qu'il comporte intérieurement une cloison inclinée (45) divisant le volume interne en deux compartiments (51, 52) en forme de coin dont l'un au moins comporte des moyens de renforcement (57, 58, 59). Application aux étuis destinés à contenir un produit en forme de tube. <IMAGE>
