Abstract (en)
[origin: EP1095866A1] The package is produced by folding a pre-cut blank consisting of side panels (31 - 34) with closure flaps (40, 41) and tabs (38). An internal locking structure which is made up of two panels (45, 46) is connected to the main structure by a triangular strip (42) can be folded to produce a partition which divides the package diagonally into two compartments. This has reinforcing components (57) at the bottom. An independent claim is included for the blank.
