Abstract (en)

[origin: WO0002451A1] The invention relates to the use of aqueous fatty alcohol preparations and/or fatty acid partial esters with low multi-functional alcohols in admixtures with ecologically compatible surface active agent compounds from the class consisting of O/W-type alkyl(poly)glycosides as a mixture of useful materials having a plant-enhancing and/or plant-healing effect against the attack by phytopathogenic fungi and/or soil borne pests.
