Abstract (en)

[origin: WO0004239A1] The invention relates to a wall, especially for mortar-free stabilisation of bushes, decks, slopes or the like, which can be built simply and rapidly and which exhibits good stability and an attractive front face. According to the invention, a shear connector (14) is associated to a stop on at least two stones (1) placed on top of each other and prevents mutual sliding of said two stones, at least in one sliding direction.
