Abstract (en)

The cathode ray tube frame mask structure has a mask colour selector (8) made of a rectangular metallic foil tensioned on a fixed frame support inside the front tube face. There is a resonator (55) which is a flexible band with a section (51) fixed on the peripheral zone (28) and with two outer sections (50) extending from the central point.

Abstract (fr)

Tube à rayons cathodiques en couleurs comportant un masque de sélection des couleurs (8) tendu dans au moins une direction, le masque comportant sur sa surface périphérique (28) des moyens amortisseurs des vibrations du masque sous forme d'oscillateur couplé (55) du type comportant une partie centrale (51) liée à la surface du masque et deux ailes (50) s'étendant de part et d'autre de la partie centrale. <IMAGE>
