Abstract (en)  
[origin: WO0069352A1] The invention relates to screws (1, 30, 40) for fixing bone fractures that comprise a head for fixing bone fractures. The screw head (4) that is screwed into the bone is provided with several bores (46, 47) wherein fixing wires or threads can be fixed so that it is no longer necessary to use anchorage elements in the form of filaments.
