Abstract (en)

[origin: EP1099736A2] A two-component lacquer coating especially for the front plate of a piece of furniture is polyurethane based and contains color flakes of polyvinyl acetate and/or polyvinyl acrylate. A section of a piece of furniture, especially a front plate, consists of a carrier plate, with a two-component lacquer coating which acts as a binding agent, especially a polyurethane based coating. The two component lacquer also contains color flakes of polyvinyl acetate and/or polyvinyl acrylate. The coating has a surface closure coating made of a single component lacquer with a binding agent, especially based on polyurethane.
