Abstract (en)
[origin: WO0006009A1] The invention relates to a children's bath (1) with a bath floor and a bath wall (11), with a substantially elongated shape and two ends. According to the invention the children's bath (1) is designed such that a child in the age of approximately 6 to 30 months can use the children's bath (1) sitting substantially upright while support is offered to the child. To that end the children's bath (1) according to the invention is substantially egg-shaped amongst others in top view.
