Abstract (en)  
[origin: WO0006122A1] Disclosed is a pharmaceutical composition comprising a drug-containing substance wherein an unpleasant taste of the drug is masked out, and a gelling agent, wherein said pharmaceutical composition is converted into a jelly-like preparation containing the above drug-containing substance dispersed therein by dissolving in water. Said pharmaceutical composition is reduced in an unpleasant taste of a drug having an unpleasant taste such as bitter taste, puckery taste, acid taste, etc. and its ease of taking is improved.
