Abstract (en)

[origin: FR2782024A1] The invention concerns a dispensing head (10) for a fluid product dispensing device, said head (10) comprising a discharge pipe (11) ending in a dispensing orifice (12), an insert (20) being provided in said discharge pipe (11), the downstream end (21) of said insert (20), in the product flow direction, defining with said discharge pipe (11) downstream end part a spraying profile (13, 14). The invention is characterised in that said downstream end (21) of said insert (20) and said downstream part of said discharge pipe (11) are respectively tapered, forming a tapered spraying profile (13, 14).
