Abstract (en)

The present invention provides an interactive amusement device (70) which gives birth to one or more offspring (82, 84), wherein the device includes appropriate electro- , mechanical interactive sensors and operating mechanisms. It encompasses a "mother" amusement device (70) which is interactive with a user, and which appears to give birth spontaneously to one or more "baby" amusement devices (84). In some embodiments, the mother and baby(ies) may be interactive with the user and each other. <IMAGE>
