Abstract (en)
An electric oven 10 having an open fronted self-supporting removable box-like liner 17 that can be completely removed for cleaning. The liner 17 has a slot 20 to receive a heating element 14 mounted inside the oven at a rear wall. When the liner 17 is inserted or removed, the heating element slides through the slot 20 and its front end is supported by a dome 23 integrally formed in a base of the liner 17. The liner 17 covers or obscures the whole of the inside of the oven 10 so that no cleaning of the oven surface is required. The liner 17 may be removed for washing in a dish washer.
