Abstract (en)
[origin: EP1103676A1] The catch (24) for the push-rod (22) is provided with at least one protrusion (40) or groove for mating with a corresponding protrusion or groove (42) in the housing cover and/or base (14). A spring is used to fix the end position of the catch. The push-rod is coupled to a bolt (18), latch (16) and/or latch nut (20) in between the cover and base of the housing (12). The catch for the push-rod is actuated by a lock cylinder.
