Abstract (en)

An electrical rotatable display shelf has a central tube (10), a plurality of upright partitions (21) provided around the central tube (10), a plurality of lateral shelves (23) supported by pins fixed on the upright partitions (21), and a base (40) with an electrical motor (400) and a rotary connecting device (50) provided therein; wherein the central tube (10) has a plurality of power sockets (13) provided thereon with relative electrical wires (31) received therein connecting all the power sockets (13). Thereby exhibition products arranged on the display shelf can be supplied with power safety and efficiency to give a dynamic effect of both the display shelf and the exhibition products. <IMAGE>
