Abstract (en)
[origin: DE19952843A1] The self-adhesive sign-label (1) has at least one written surface (14) placed against an application surface. The written surface is free of adhesive when not placed on the application surface. The sign has an adhesive -carrier whose adhesive is removable from it and permanently fixable to the written field. The sign has two panels one (3) of which forms the written field, and the second (4) is in the form of an adhesive-carrier removably taking a layer (8) of adhesive.
